# ALETHEIA LABS

CAPABILITY STATEMENT

**Aletheia Labs LLC**
3044 Breckenridge Ln Ste 102
Louisville, KY 40220
aletheialabs.us

## COMPANY OVERVIEW

Aletheia Labs designs, builds, secures and operates software, websites and digital infrastructure for federal, state and local agencies and the contractors who serve them. We deliver under one accountable point of contact, document everything as we go, and leave government-owned systems that can be operated and audited without us.

## CORE COMPETENCIES

### Software Engineering
Business and case-management applications · API design and development · System integration · Database engineering

### Web Development
Public websites · Web applications and portals · Section 508 / WCAG 2.2 AA · Content management

### Cloud & Infrastructure
Cloud architecture · Cloud migration · Infrastructure as code · Networking and DNS

### Managed Hosting
Application hosting · Patching and updates · Backups and restore tests · Uptime and certificate monitoring

### DevOps
CI/CD pipelines · Environment automation · Release process · Security scanning in the pipeline

### Cybersecurity
Security assessments · Vulnerability management · System hardening · NIST-aligned control implementation

### IT Services
Microsoft 365 and Google Workspace · Email, domains and DNS · Device setup and management · Backups

### Blockchain Engineering
Consensus and protocol design · Network and node infrastructure · Smart contract development · Provenance and audit-trail systems

## DIFFERENTIATORS

**One accountable point of contact**
Contracting officers and CORs deal directly with the founder and the engineers doing the work, from kickoff through closeout.

**Build and operate under one contract**
We design, deliver, secure and run the system, so there is no handoff gap between development and operations vendors.

**Documentation as a deliverable**
Architecture, runbooks, inventories and security evidence are written as the work happens, ready for audits and transitions.

**Government-owned outcomes**
Source code, infrastructure definitions and credentials live in government accounts. No proprietary lock-in, no transition hostage.

**Security and accessibility by default**
NIST-aligned controls and Section 508 conformance are treated as acceptance criteria, not as a phase at the end.

## NAICS CODES

| | |
|---|---|
| **541511** | Custom Computer Programming Services |
| **541512** | Computer Systems Design Services |
| **541519** | Other Computer Related Services |
| **518210** | Computing Infrastructure Providers, Data Processing, Web Hosting, and Related Services |
| **541690** | Other Scientific and Technical Consulting Services |

## STANDARDS

Section 508 / WCAG 2.2 AA · NIST SP 800-53 and 800-171 aligned controls · FedRAMP-authorized and US-region hosting · FFP, T&M and labor-hour task orders

## PSC CODES

**DA01** · **DB02** · **DD01** · **DE01** · **DH01** · **DJ01**

## FOUNDER'S PRIOR WORK

**Enterprise e-signature platform** (Sterling Bank (Nigeria)) · **RavenSec Twin** (Wema Bank (Nigeria)) · **Orculix** (Bank of Industry (Nigeria)) · **Kortana Network** · **AletheiaChain**
